

SUNSTREAM LAUNCHES THE SECOND GENERATION SUNPORT

SunPort2™ Drive-On Lift Provides a New Standard for Safety and Ease of Use.
Trust your summer fun to the Sunstream SunPort2

Kent, Wash. - Increase your summer fun and decrease your worry this summer with Sunstream's new SunPort2™. It has been a year since Sunstream introduced their PWC drive-on dock, the SunPort1, which quickly became Sunstream's most popular lift model. The SunPort was designed to be the safer and more convenient drive-on docking system. This year, Sunstream launched the 2nd generation SunPort, the SunPort2, which the company believes will advance drive-on PWC lift technology even further.

The original SunPort's unique features include a pivoting tail for smooth loading, foam filling to make the port unsinkable, a bow stop to prevent overshooting the landing, and an integrated QuickCover™ to save time and increase craft protection. The reshaped SunPort2 hull design makes a noticeable improvement in use, especially for the larger PWC's. The SunPort2 has the first ever hydro-dynamically designed bottom that keeps the port more level at different loading weights. Instead of having a flat bottom, the bottom is shaped to maximize buoyancy stiffness in the rear. The SunPort2 also added corner cleats and access through the bow stop to connect the bow lanyard.

The SunPort2, measures 13-feet, 8-inches long and 59-inches wide, and can accommodate a load capacity up to 1,600 pounds (725 kg). The Sunstream SunPort2 has a US \$1,849 suggested retail price and is currently available from authorized Sunstream dealers worldwide. For more information on the SunPort2™, Sunstream, or its complete line of high quality boat lifts and accessories, contact Sunstream at 888-786-5438, internationally at 001-253-395-0500, or visit www.sunstreamboatlifts.com.

###

About Sunstream Corp: Sunstream Corporation, based in Seattle Washington, is the leading hydraulic boat lift and hoist manufacturer in the world. Founded in 1996, Sunstream has been recognized as one of the United States' fastest growing companies. Sunstream's family of boat lifts integrate modern hydraulics, rugged aluminum frames and eco-friendly materials to create a superior product that provides its customers the safety and peace of mind they deserve.
